

the Indonesian armed forces, also rounded up an estimated 20,000 villagers who are being detained in the town. Members of this family are among thousands of East Timorese being held in tents and abandoned buildings in Liquica. It is believed that they will be pressured to vote against independence.

TAX FREEDOM DAY

Mr. MACK. Mr. President, I am here today because finally, Tax Freedom Day has arrived—the day the average American has earned enough income to cover his or her Federal, State and local taxes for the year. Only today—after one-third of the year has already passed—have our working men and women earned enough money to pay their taxes for the year! This is truly amazing, and it is also truly wrong.

Tax Freedom Day has moved successively later into the year for the past 7 years, as the Federal Government seeks to claim a larger and larger portion of the American family income. Since 1993, Federal tax revenues have grown 52 percent faster than personal income growth. And last year alone, Federal revenues grew 80 percent faster than personal income.

Florida's Tax Freedom Day is even later—Floridians will not finish earning enough to pay their taxes for the year until Friday, May 14. They also shoulder the 5th heaviest total tax burden in the country.

In 1999, Federal, State and local governments are projected to collect an average of \$10,298 in tax revenue for every person in the country. This year, the Federal Government will collect more tax revenue as a share of GDP—that is 20.7 percent—than at any time since 1944. This is the highest level in peacetime history.

If that isn't enough to put the high Federal tax take into perspective, let me share with you a few examples of just how much taxes impede our freedom every day of the year.

I brought with me a daily tax clock to illustrate just how many different times we are taxed in ways we may not even realize. Think about the different things you do in the course of your average day. Planning your family's summer vacation? Forty percent of the cost of an airline ticket is taxes! When you drive to and from work today, 54 percent of the price of a gallon of gasoline is taxes. Did you call your mother on Mother's Day? Fifty percent of the cost of your phone bill is due to taxes.

Taxes infringe on our freedom—our freedom to work, our freedom to invest and our freedom to provide for our families. It is more apparent than ever that the mammoth Federal Government we have created will never be satisfied—if there is money to be had, the Federal Government will take it.

That is why it is more important than ever to provide tax relief to our families. We have a balanced budget, and soon we will be working with a

Federal surplus. If the Federal Government has its way, this overpayment of taxes by the American people will be spent in Washington on new Federal programs. We need to give the American people their money back. I have proposed a tax plan which will do just that by, No. 1, providing tax relief for all American income taxpayers, No. 2, encouraging economic growth and, No. 3, ensuring U.S. technological leadership in the 21st century.

We need to ensure the United States keeps its status as an economic powerhouse in the next millennium. The Federal Government's role in ensuring this happens is to cut taxes and get out of the way to give the American people the freedom to pursue their own dream—not Washington's.

SOCIAL SECURITY LOCK BOX

Mr. FITZGERALD. Mr. President, twice, the Senate has failed to invoke cloture on the Social Security Lock Box. I am a cosponsor of this important amendment and I encourage all of my colleagues to join me in support for a Social Security lock box.

For several years, Congress has taken all the money out of the Social Security Trust Fund and spent it on other programs. In fact, through the end of last year, Congress has taken over \$730 billion out of the trust fund and spent it all on other programs.

I believe that it is wrong to spend Social Security Trust Fund money on other programs. If a private corporation were to take money out of an employees' pension plan and spend it on something else, the executives of that corporation would, under Congress' own laws, be subject to prosecution and imprisonment. Why do we allow Congress to raid Social Security, the pension fund for all Americans?

Each time our government takes money out of the Social Security Trust Funds, it incurs a debt to these funds. To date, the government has incurred total debts of over \$730 billion to the Social Security Trust Funds. The debts owed to these funds are included in the calculation of our total national debt which now stands at roughly \$5.5 trillion. This debt, along with the program's massive unfunded liabilities, will ultimately have to be paid by future taxpayers.

The lock box proposal would ban Congress from spending Social Security Trust Fund monies on other programs (unless there is a super-majority vote to do so). Those who oppose the lockbox proposal want to continue spending Social Security Trust Funds on other new and unrelated programs.

While I believe that we need to take other steps to protect Social Security, I nevertheless believe that this lockbox provision is an important first step in ensuring the long-term fiscal health of our nation. By making it more difficult

to spend Social Security Trust Funds on other programs, we will make it easier for ourselves to meet our obligation to Social Security in the future.
